Hi,

How to read or skip Comment Tag with in the Tag ??

Attached is the test file which I am trying to read..

Following is the error I get while reading the file:

Expected 'Message' endtag.

I will need to know more about your code. Quick test:

```
#include <Core/Core.h>

using namespace Upp;

CONSOLE_APP_MAIN
{
 try {
  XmlNode xn = ParseXML(LoadFile(GetHomeDirFile("TestFile.xml")));
  DDUMP(AsXML(xn));
 }
 catch(XmlError& e) {
  DDUMP(e);
 }
}
```

seems to work just fine...

Hi Mirek,

Thank you for your response...I tried your code and could read the file ..

But ,

Attached is my Code ..where I am parsing Tag by Tag and find error while parsing "Message" Tag.

How do I solve this ???

Use

```
msg1 = p.ReadTextE();
```

Explanation: Comments are normally skipped by Skip. ReadText (without E) only reads single element from XML, but on its own is not able to skip anything. ReadTextE reads all text until ending tag, skipping things as needed.
