Hi,

search.NullText("Search", StdFont().Italic(), SColorDisabled());

replaced with

search.NullText(t_("Search"), StdFont().Italic(), SColorDisabled());

This amendment permits correct translation according with local application language.

Regards
Biobytes

Hello BioBytes,

In my opinion your modification is perfect. Thanks! In addition, I enclose polish translation for "Search" word:

T_("Search")
plPL("Szukaj")

Sincerely,
Klugier
