Hello,

I have rewrite/modify FileSel code responsible for handling file icons on GTK.

What I have changed:

- add KDE Port
- add handling for u++ special files
- add new functionality
- add new function "SystemImage"
- fix handling bugs
- fix MIME handling kernel

I have attached demonstrative image:

Know issues:

- KDE MIME Multimedia icons handling dosen't work correctly.

Sincerely,
Klugier

- add handling for u++ special files

I am not quite sure about this point... but OK, why not.

Patch applied, thank you!

Mirek
