It took to hide default '+', '-' (their role will be to carry out the icons in the tree). This is possible?

Sorry, could you detail it a little bit?

I understand

Very recently somebody proposed to change the + and - style for a Windows + and - style.
However I have not found it .

That could be a great example!

Have you tried to replace '+' and '-' icons like below?

```
CtrlImg::Set(CtrlImg::l_treeplus, Wnb3Img::treeplus);
CtrlImg::Set(CtrlImg::l_treeminus, Wnb3Img::treeminus);
```

result:

Hello iST1

I have tried Novo trick and it works perfectly for me .

Try for example:

```
CtrlImg::Set(CtrlImg::l_treeplus, CtrlImg::save);  
CtrlImg::Set(CtrlImg::l_treeminus, CtrlImg::save_as);
```

Try for example:

```
CtrlImg::Set(CtrlImg::l_treeplus, CtrlImg::save);  
CtrlImg::Set(CtrlImg::l_treeminus, CtrlImg::save_as);
```

This has two potential drawbacks:

- it changes icons for ALL TreeCtrls (and possibly other code using those images)
- current TreeCtrl code does not account for the altered size of image, so if you provide something BIG, things will look weird

Anyway, I guess this is reasonable request, will provide the feature soon....

Mirek
