Hi,

How can I make a menu item (Bar::Item) display in bold? I mean in the way that is frequently used to show in a context menu the default double click action of an object.

Best regards,

Tom

Well, it turned out there was no such feature, but now there is. Please see:
http://www.ultimatepp.org/forum/index.php?t=msg&th=8190& amp;start=0& for details.

Best regards,

Tom
