Hello,

As I wrote in previous topic, It would be nice if we had GLEW plugin. I decided to write it by myself.

I have closed two packages:
GLDraw.tar.gz - updated version of GLDraw that dosen't contain GLEW, but depending on new glew plugin. (uppsrc/GLDraw)
glew.tar.gz - new gelw plugin, you should move it to uppsrc/plugin/glew (Plugin base on latest GLEW version. Moreover plugin contains additional static linking preprocessor directive)

P.S.
Tested on GNU/Linux.

Sincerely,
Klugier
