The patch:

```
----- uppsrc/MySql/MySql.cpp -----
index 45bfc43..ee8d848 100644
@@ -361,16 +361,18 @@ bool MySqlConnection::Execute() {
    lastid = (int)mysql_insert_id(mysql);
    if(lastid) {
        SqlColumnInfo& f = info.Add();
        f.width = f.scale = f.precision = 0;
        f.binary = false;
        f.type = DOUBLE_V;
        f.name = "LAST_INSERT_ID";
        rows = 1;
+   }else{
+   rows = (int)mysql_affected_rows(mysql);
    }
    }
    return true;
}

int MySqlConnection::GetRowsProcessed() const {
    return rows;
}
```

While I have accepted this patch, I am scratching my head a little:

IMO, 'rows' should have stayed set at value set at line 315, setting it again in 'else' should not change a thing?! What am I missing here?

Mirek

Oops, this patch is not needed...

I created this patch a long time ago, but forgot to send it to you. Now I can see, that you fixed this on Mon Feb 27 14:06:09 2012 at line 315. Sorry for not checking that.
