Hi,

I don't have anymore the post notifications. I didn't payed attention when I stopped to receive... could be when the forum changed.

To be sure, I verified my email address in my account settings, it's Ok...

Hello,

I have the same problem since the forum upgrade, although I received a notification once

Hi,

French postal workers are on strike ?
(Joke : there is often strikes in France)

Do other people have the problem ?

Hi,

Are we only 2 people to have this problem ? This is troublesome not to have these notifications...

HI,

I have the same problem with getting notifications sent to my mail address.

I join the row! No Email notifications anymore since the forum changed.
As a workaround I scan the "today" forum messages. But here the issue is that I often miss late night posts. Imho it would be better to change it from today's posts to posts of the last 24 hours.

Hi guys,

Thanks for your posts.

A very quick search on FUDforum website show me that nobody seems to complain about missing notifications. So, the problem is probably with some changes made by the webmaster of this site (Mirek ?).

Mirek/webmaster : if you read this, could you please either fix the bug or explain why it's no more possible to have the notifications ? It's not a very serious problem, but sometimes we miss some interesting post, when it could be quick and easy to fix... Thanks.

He,

Its too bad that this notification does not work anymore. I sometimes miss some important or interesting posts !

At least, is there an explanation about this not working notification ?

Hi,

Seems working now : I received the notification messages for th 3 last posts.

Thank you !
