Hello Guys,

Sometimes ago I noticed that "Drag&Drop" doesn't work on pure GTK IDE inside CodeEditor. Do you have a similar problem?

Thanks for answers,
Klugier

I wanted to say NO, then tested thouroughly and found that

- to outside theide and from outside (e.g. theide <-> Gnome text editor) it works fine
- but within the same theide instance it does not

going to investigate now..

OK, fixed.

It seems like it might have been bound to particular GTK versions, that is why I have not reproduced it earlier...

Hi all,

I noticed quite some time ago that clip doesn't always work on linux (at least when trying to

drag/drop files) : the difference comes from the explorer used.
I haven't recently tested.
