File uppsrc/PostgreSQL/PostgreSQLSchema.h have error, therefore PostgreSQL schema does not support arrays.

File uppsrc/PostgreSQL/PostgreSQLSchema.h 4-th row now:

#define INT_ARRAY_(x, items)  COLUMN_ARRAY("integer", int, x, 0, 0, items)

must be:

#define INT_ARRAY_(x, items)  COLUMN_ARRAY_("integer", int, x, 0, 0, items)

(add _-sign (underscore) after COLUMN_ARRAY)
