Dear All,

I am facing difficulty in opening "port 10" in my computer system for serial communication through "CommPak" program.Its giving "can not open port 10", Please help me to fix this problem. Code snippet and examples are expected.

Thanks & Regards,

Ayana

Dear all,

Got the solution for it.For ports above 9
in Serial.cpp
CHANGE
wsprintf(szPort, "COM%d", nPort);
TO
wsprintf(szPort, "\\\\.\\COM%d", nPort);

Thanks,
Ayana
