Hi,

Moving the call to Highlight(NULL); three line after, in the constructor of CodeEditor resolve this issue.

CodeEditor.cpp, line 970:

replace:

```
Highlight(NULL);  
barline = true;  
sb.WithSizeGrip();  
DefaultHIStyles();
```

by:

```
barline = true;  
sb.WithSizeGrip();  
DefaultHIStyles();  
Highlight(NULL);
```

Thanks.

Hello omari,

After investigating last changes from CodeEditor code I have found that this patch is on the trunk from revision 7864. Thank you for your patch. You can also change status from "BUG ?" to "APPROVED".

Link to revision diff: [https://code.google.com/p/upp-mirror/source/diff?spec=svn7864&r=7864&format=side&path=/trunk/uppsrc/CodeEdit or/CodeEditor.cpp](https://code.google.com/p/upp-mirror/source/diff?spec=svn7864&r=7864&format=side&path=/trunk/uppsrc/CodeEdit%20or/CodeEditor.cpp)

Sincerely,  
Klugier
