To make the SetEditable option in Calendar work the following needs to be added.

```
void Calendar::OnMonthLeft()
{
    if(IsReadOnly())
        return;

void Calendar::OnMonthRight()
{
    if(IsReadOnly())
        return;

void Calendar::OnYearLeft()
{
    if(IsReadOnly())
        return;

void Calendar::OnYearRight()
{
    if(IsReadOnly())
        return;

void Calendar::LeftDown(Point p, dword keyflags)
{
    if(IsReadOnly())
        return;
```

Cheers.
