Is there a way I can get/force theide to do code-completion for external API's?
E.g.: the STL for starters (or any headers for external libraries)

Not yet.

Anyway, it is something I am working on right now...

You did it! )

I've been developing using svn8048 for the last couple of months
and today updated to 8605 ... and got a very pleasant surprise
Amazing the difference a bit of eye-candy does as well

Thank you
