```
 HttpRequest req("https://p41-buy.itunes.apple.com/WebObjects/MZFinance.woa/wa
/signupWizard");

 req.ContentType("multipart/form-data; boundary=DC6F1AC257D578C3E145646D500CAC46");
 req.UserAgent("iTunes/11.4 (Windows; Microsoft Windows 7 x64 Ultimate Edition Service Pack 1
(Build 7601)) AppleWebKit/536.30.1");
 req.Header("Cache-Control", "no-cache");
 req.Header("Accept-Language", "zh-cn, zh;q=0.5");
 req.Header("X-Apple-Tz", "28800");
 req.Header("X-Apple-Store-Front", "143465-19,17");
 req.Header("Connection", "Close");
 req.Header("X-Apple-ActionSignature", xSignature);
 req.Header("Date", GetDateHttp());
 req.Post(data);
 String result = req.Execute();
```

see the picture, i just request the first url
https://p41-buy.itunes.apple.com/WebObjects/MZFinance.woa/wa /signupWizard

See the first url Response Details, the location is
https://p12-buy.itunes.apple.com/WebObjects/MZFinance.woa/wa
/signupWizard?Pod=12&PRH=12
i just want the HttpRequest did not auto request the other two url,so that i can request the location next!

Hi akabee,

Have a look at MaxRedirect. It should be enough to set it to 0.

Best regards,
Honza
