
Subject: [solved]How to disable "auto access redirect url " of the HttpRequest?
Posted by [akebee](#) on Tue, 26 May 2015 02:46:35 GMT

[View Forum Message](#) <> [Reply to Message](#)

```
HttpRequest req("https://p41-buy.itunes.apple.com/WebObjects/MZFinance.woa/wa  
/signupWizard");
```

```
req.ContentType("multipart/form-data; boundary=DC6F1AC257D578C3E145646D500CAC46");  
req.UserAgent("iTunes/11.4 (Windows; Microsoft Windows 7 x64 Ultimate Edition Service Pack 1  
(Build 7601)) AppleWebKit/536.30.1");  
req.Header("Cache-Control", "no-cache");  
req.Header("Accept-Language", "zh-cn, zh;q=0.5");  
req.Header("X-Apple-Tz", "28800");  
req.Header("X-Apple-Store-Front", "143465-19,17");  
req.Header("Connection", "Close");  
req.Header("X-Apple-ActionSignature", xSignature);  
req.Header("Date", getDateHttp());  
req.Post(data);  
String result = req.Execute();
```

see the picture, i just request the first url

<https://p41-buy.itunes.apple.com/WebObjects/MZFinance.woa/wa/signupWizard>

See the first url Response Details, the location is

<https://p12-buy.itunes.apple.com/WebObjects/MZFinance.woa/wa/signupWizard?Pod=12&PRH=12>

i just want the HttpRequest did not auto request the other two url,so that i can request the location next!

Hi akabee,

Have a look at MaxRedirect. It should be enough to set it to 0.

Best regards,

Honza
