Hello,

Now, TheIDE posses two new navigation icons. These are "Go back" and "Go forward". Our goal was to allow users that doesn't know short-cuts very well to perform navigation operation more easily. Please notice that if you want to jump you have to still use "CTRL+Click on symbol" or "context go to via ALT+J (Assist menu)". Moreover, go back/forward have been moved to "Assist" menu bar entry from "File" entry.

Preview:

P.S. 1
You can still use keyboard short-cuts to perform following navigation operations: "ALT+LEFT" (Go back) & "ALT+RIGHT" (Go forward).

Known issues:
- typing only one letter to code editor doesn't trigger creating new history entry.

Sincerely,
Klugier
