lets take a look at the log file, and return.

patched OpenLog() function:
file: ide/Debug.cpp
line: 424

```
void Ide::OpenLog()
{
 String p = GetLogPath();
//++++++++++++++++++++++++++
 String path = NormalizePath(p);
 if(!designer && path == editfile)
 {
  History(-1);
  return;
 }
 AddHistory();
//--------------------------
 if(FileExists(p))
  EditFile(p);
}
```

Hello omari,

Good idea. Added to redmine: http://www.ultimatepp.org/redmine/issues/1357.

Sincerely,
Klugier
