Hi,

after pkg update && pkg upgrade i have error:

redefinition of 'FT\_MemoryRec\_' when i compile any project.

FT\_MemoryRec\_ is defined into FT\_fontsys/ftsystem.h and freetype/ftsystem.h

Best Regards.

Hello, Serge.

lovmy wrote on Fri, 18 March 2016 09:16after pkg update && pkg upgrade i have error:

redefinition of 'FT\_MemoryRec\_' when i compile any project.

FT\_MemoryRec\_ is defined into FT\_fontsys/ftsystem.h and freetype/ftsystem.h

The patch for devel/upp port is already proposed on FreeBSD Bugzilla (PR 207979).

I think, this issue was related to freetype2 v2.6.3 update. It was fixed on U++ repository about 3 weeks ago.

The complete port with changes attached to the message, just in case.

Edit:

Proposed patch was committed. Attachment removed.
