Subject: error compiling with upp9801
Posted by nlneilson on Thu, 05 May 2016 08:40:33 GMT

COMPILING WITH msc15:
c:\upp-mingw-9801\upp\myapps\control\ParseLoc.h (120): error C2676: binary '<<=': 'Upp::String' does not define this operator or a conversion to a type acceptable to the predefined operator

compiling with MINGW:
C:\upp-mingw-9801\upp\MyApps\Control\ParseLoc.h (120): error: no match for 'operator<<=' (operand types are 'Upp::String' and 'Upp::String')

There was no changes in my code and it compiled OK with upp9701

a few lines of code:
  String LLA, Lat, Lon, Alt, fAlt, Sigq;
line #120 where the error occurs:
  ln<<= GGA2decAng(ln);

this is with just updating from upp 9701 to 9801

Neil
