Hi,

Recently installed Lubuntu 16.04
UPP Version 9903(64bit)(GCC)(C++11) compiled from source

I am getting following errors

In file included from

/root/upp.out/examples-bazaar/Form/GCCXenomai.Debug.Debug_Full.Gui.Shared/\$blitz.cpp:11:0

:

/root/upp/bazaar/Form/Form.cpp: In member function 'void Form::OnAction(const Upp::String&):

/root/upp/bazaar/Form/Form.cpp:367:16: error: 'Upp::Callback3<const Upp::String&, const Upp::String&, const Upp::String&> {aka class Upp::Event<const Upp::String&, const Upp::String&, const Upp::String&>}' has no

member named 'Execute'

SignalHandler.Execute(Script, "OnAction", action);
