Subject: <build_info.h> can't be included in .rc file

If I put
#include <build_info.h>

in myapp.rc then the microsoft resource compiler chokes on it because the last line in the file doesn't have a "\r\n"

I am using the most recent stable version.

Ok, I added a line to CppBuilder.cpp

```
Vector<String> SvnInfo(const String& package)
{
 Vector<String> info;
 String d = GetFileFolder(PackagePath(package));
 if(IsSvnDir2(d)) {
  String v = Sys("svnversion " + d);
  if(IsDigit(*v))
   info.Add("#define bmSVN_REVISION " + AsCString(TrimBoth(v)));
  v = Sys("svn info " + d);
  StringStream in(v);
  while(!in.IsEof()) {
   String l = in.GetLine();
   if(l.StartsWith("URL: ")) {
    info.Add("#define bmSVN_URL " + AsCString(TrimBoth(l.Mid(5))));
    break;
   }
  }
  info.Add(""); // Line I added so that the files terminate with \r\n
 }
 return info;
}
```

That fixes the issue
