Subject: Convert Upp::String to int
Posted by lovmy on Fri, 25 Nov 2016 13:11:16 GMT

Hi,

what's the method to convert Upp::String to int ?

Thank you for your response.

Hello,

Try to use StrInt(const char* s). To revert this operation use IntStr. I strongly believe that this methods should be in official documentation...

Edit:
The documentation is updated. The results should be seen tomorrow.

Sincerely,
Klugier

For extensive formatting of int -> string you may also want to check this part of docs:

http://www.ultimatepp.org/src$Core$FormatFn$en-us.html

(I know the question was other way around, but just for completeness)
