U++ - Bug #1030

"View as hex" can led to confusion

04/01/2015 01:53 PM - Zbigniew Rebacz

Status:	Rejected	Start date:	04/01/2015
Priority:	Normal	Due date:

Target version:		Spent time:	0.00 hour

Description

The problem with "View as hex" entry in edit menu:

- missing separator when file type doesn't support designer
- view as binary doesn't work for some reason for ".lay" file extension

Do we rely want to "View as hex" in text files like ".cpp" or ".lay"?

History

#1 - 04/01/2015 01:56 PM - Zbigniew Rebacz

Next bug:

- open any cpp file.
- view as binary
- in hex viewer use edit as text (Ctrl+T)
- open edit menubar

Result:

- now you can view cpp file as binary and open it in designer!!!

#2 - 07/24/2015 02:11 PM - Zbigniew Rebacz

- Status changed from New to Rejected
- Assignee changed from Miroslav Fidler to Zbigniew Rebacz
