U++ - Bug #1077
cpp: scanning hell

05/16/2015 04:39 PM - Zbigniew Rebacz

Status:	Approved		Start date:	05/16/2015

Target version:			Spent time:	0.00 hour

Description

I used new cpp navigator, but I have problem with performance (it slows the workflow):

- After quiting enviroment settings the code is fully resan.

- After adding new file to project! (Full scanning)

P.S.

I cannot do enything while scanning. Of, course the best thing is to do scanning in separate thread/process which will not block TheIDE.

History

#1 - 05/17/2015 02:48 PM - Miroslav Fidler

Yes, I was now quite happy about it too. Still working on it, I hope that optimizations done this weekend should mostly resolve the issue.

#2 - 05/17/2015 02:48 PM - Miroslav Fidler

- *Status changed from New to Ready for QA*

- *Assignee changed from Miroslav Fidler to Zbigniew Rebacz*

#3 - 06/14/2015 10:50 PM - Zbigniew Rebacz

- *Status changed from Ready for QA to Approved*

OK.
