

U++ - Feature #1088

InstallPanicMessageBox() available to program

05/19/2015 12:19 PM - Iñaki Zabala

Status:	New	Start date:	05/19/2015
Priority:	Normal	Due date:	
Assignee:	Miroslav Fidler	% Done:	0%
Category:	Core	Estimated time:	0.00 hour
Target version:		Spent time:	0.00 hour
Description			
<p>I would like that memory or other critical errors would call a programmer defined user function.</p> <p>Now InstallPanicMessageBox() could be an option. However, this is a global handler and Ctrl::Ctrl() calls InstallPanicBox(), so any programmer handler is overwritten when any Ctrl is constructed.</p>
