Description

I think we can improve a little bit this dialog by making it a little bit bigger. Moreover nice feature will be filled dialog with package name. I think package name should be whole select at the beggining, so user can fast remove it if he/she wants to.

History

#1 - 07/12/2015 11:32 AM - Zbigniew Rebacz

I think "Warning" should be the length of one line like in delete package warning.

#2 - 07/23/2015 10:09 PM - Miroslav Fidler

- Status changed from New to Approved

Prefill implemented, making it wider looks ugly IMO.
