I downloaded [sqlite-amalgamation-3070800.zip](#) archive file from [download](#) page.

Farther, I extracted "sqlite3.c" and "sqlite3.h" files to [uppsrc/plugin/sqlite3/lib](#) directory and tested [reference/SQL_SQLite3](#) application. Results were the same, as previous version (for **Debug** build mode).

Then, I created the patch between current and new versions and uploaded it here, for completion.
