Target version:		**Spent time:**	0.00 hour

Description

Current layout doesn't look good. Here is example:

```
----- AndroidMathUtility ( ANDROID DEBUG DEBUG_FULL LINUX POSIX ) (1 / 2)
----- AndroidMath ( MAIN ANDROID DEBUG DEBUG_FULL LINUX POSIX ) (2 / 2)
Building Android Project
-----
Compiling java sources...
Java sources compiled in (0:00.83).
-----
Compiling native sources...
Native sources compiled in (0:01.35).
-----
Creating dex file...
Creating apk file...
Adding native libraries to apk...
Generating debug key...
Signing apk file...
Aliging apk file...

OK. (0:03.95)
```
