| Description | | | |
| <p>Current layout doesn't look good. Here is example:</p> <pre>----- AndroidMathUtility (ANDROID DEBUG DEBUG_FULL LINUX POSIX) (1 / 2) ----- AndroidMath (MAIN ANDROID DEBUG DEBUG_FULL LINUX POSIX) (2 / 2) Building Android Project ----- Compiling java sources... Java sources compiled in (0:00.83). ----- Compiling native sources... Native sources compiled in (0:01.35). ----- Creating dex file... Creating apk file... Adding native libraries to apk... Generating debug key... Signing apk file... Aliging apk file... OK. (0:03.95)</pre> | | | |
