

U++ - Bug #144

Fix BlockStream behaviour

10/26/2011 08:32 PM - Miroslav Fidler

Status:	Approved	Start date:	10/26/2011
Priority:	Normal	Due date:	
Assignee:	Tomas Rylek	% Done:	0%
Category:	General	Estimated time:	0.00 hour
Target version:		Spent time:	0.00 hour
Description			
Fix following issues:			
- stream sometimes writes zero sized block			
- sometimes the order of blocks written is not quite logical			

History

#1 - 11/16/2011 03:30 PM - Miroslav Fidler

- Status changed from New to Ready for QA

#2 - 11/16/2011 04:33 PM - Tomas Rylek

- Status changed from Ready for QA to Approved

TCore/DataBase test run OK (file-intensive application)

Zero block size - fixed

Block write order - improved:

OracleBlob::Write(0, 4096): res = 0, n = 4096

OracleBlob::Write(4096, 40960): res = 0, n = 40960

OracleBlob::Write(45056, 1897): res = 0, n = 1897

(result of Put-ting a 49K data on the BLOB stream)
