

U++ - Feature #1703

Macro manager for TheIDE

05/03/2017 01:23 AM - Zbigniew Rebacz

Status:	Approved	Start date:	05/03/2017
Priority:	Normal	Due date:	
Assignee:	Zbigniew Rebacz	% Done:	0%
Category:	IDE	Estimated time:	80.00 hours
Target version:	Release 2017.2	Spent time:	0.00 hour
Description			
<p>The macro manager feature will work like below:</p> <ul style="list-style-type: none">- User could import macros to UppLocal from TheIDE level- User could export all his UppLocal macros outside TheIDE.- We should add create macro that will be placed in UppLocal. (Can be done in the future)- User could select macro and the jump to macro edition (Package and global)- Macro manager would list all available macros (Package and global)- The option will be available at menu -> Setup -> Macro manager <p>I am currently working on that feature with Omari. We are developing this feature on Slack. It should be released in 2017.2. Now we need to polish this feature and eliminate bugs :)</p> <p>TODO list:</p> <ul style="list-style-type: none">- Exportation should only work for UppLocal dear - package macros should not be exported!!!- Function/Macro in code preview should display the real macro declaration - it shouldn't be created inside macro editor.- Minor code improvements - done by me by code improvement.- Feature testing.- Hight quality code - as always in the U++ :) Code review via comments in sources file.
