

U++ - Feature #1782

Custom literal for upp string

08/08/2017 01:36 PM - Zbigniew Rebacz

Status:	Rejected	Start date:	08/08/2017
Priority:	Normal	Due date:	
Assignee:	Miroslav Fidler	% Done:	0%
Category:	Core	Estimated time:	0.00 hour
Target version:	Release 2017.2 - NTH	Spent time:	0.00 hour

Description

We should allow to create Strings using custom literals. Motivation:

```
auto myText = "Upp is the best"S; // The end prefix should have appropriate design - i believe we can not use s - it is reserved for
std::string.
```

```
auto myWideText = "Wide text"WS;
```

History

#1 - 11/13/2017 11:33 AM - Miroslav Fidler

- Status changed from New to Rejected

This is nonsense. Do not believe Sutter, he is wrong.

```
String foo = "Something";
```

```
auto foo = "Something"S;
```

Preferring second over first is insanity.
