U++ - Bug #1927
Minimal window size is not respected

01/26/2019 12:44 AM - Zbigniew Rebacz

Status:	Approved		**Start date:**	01/26/2019
Priority:	Urgent		**Due date:**

Category:	CtrlCore		**Estimated time:**	0.00 hour
Target version:	Release 2019.1		**Spent time:**	0.00 hour

Description

For me it seems like the regression. Some window with defined minimal size now can be very very small.

Tested on GTK back-end.

The priority is set to urgent, because the core functionality is broken. We also need to know that other platforms are affected as well.

History

#1 - 01/26/2019 12:44 AM - Zbigniew Rebacz

It also might be the KDE problem... We need to know.

#2 - 01/26/2019 09:58 AM - Miroslav Fidler

can you provide some example (preferably testcase)? or way to reproduce?

#3 - 01/26/2019 12:50 PM - Zbigniew Rebacz

"Select main package" window from TheIDE is good example.
