

U++ - Bug #1928

The sub-menu can be trimmed on macOS

Target version:	Release 2019.1 - NTH	Spent time:	0.00 hour
Description			
<p>Please refer to the screenshot I attached to this ticket. If you invoke menu in the end of the space it will be trimmed instead of spawning it above with full size.</p> <p>The other application behaves the same, but I think it is pure user experience in compare to other platforms.</p> <p>We should also think to allow user to display package options within the top menu of TheIDE.</p>
