I belive the issue is reproducible on other distros when you didn't allow to install ms fonts during installation and after that. Manjaro doesn't have in their repos fonts. Workaround:

- <https://forum.manjaro.org/t/trouble-installing-ms-ttf-fonts-again/53101> (Installing ms fonts on Manjaro)

- *Status changed from New to Rejected*

In order to work correctly you need to install proprietary font packages.
