

U++ - Feature #1957

Export PNG's inside IconDesigner should support variant

04/28/2019 12:54 PM - Zbigniew Rebacz

Status:	Approved	Start date:	04/28/2019
Priority:	Normal	Due date:	
Assignee:	Miroslav Fidler	% Done:	0%
Category:	IconDes	Estimated time:	0.00 hour
Target version:	Release 2019.2	Spent time:	0.00 hour
Description			
<p>Now when we have two icons (normal and dark) only the last one from the browser is exported. We should add to file name the flag name as well. For example the icon is header when it is in dark mode variant it should be exported to header_dk.png.</p>
