Target version:	Release 2021.1		**Spent time:**	0.00 hour

Description

This works fine on Windows and on Linux probably too, but on Mac you can close drop list by Esc or switching to another control. The default behavior is that when you click in empty space the list has been closed.

Maybe it is good time to re-switch to mac and to fix these two issues (the first one is with focus found during rc testing) :)
