<b>Description</b>			
<p>I see some things to improve in Settings after UppHub development:</p> <ul style="list-style-type: none"><li>- "Default UppHub folder should use global select directory button instead of custom one (for consistency - we do not develop it to do not use it)</li><li>- The same is true for "In editor mode, path for .usc files" (needs framework select directory button for consistency)</li><li>- Persistent tabs overlaps in Editor Layout</li><li>- "Restore default colors"m "White theme" and "Dark theme" buttons doesn't fit to the current settings window size.</li></ul>
