<b>Description</b>			
<p>Fixing of issue #139 introduced new <b>sel</b> argument for <a href="#">SaveLoadPackageNS</a> and <a href="#">SaveLoadPackage</a> functions. Mainly, to disable selection of package items inside these functions, if selection will be done after.</p> <p>Example:</p> <pre>int i = filelist.GetCursor(); int s = filelist.GetSbPos(); SaveLoadPackage(false); filelist.SetSbPos(s); filelist.SetCursor(i);</pre>			
<p>I propose to use such functions with <b>sel = false</b> argument, where such situation exists.</p>
