

U++ - Task #279

Core/Value.hpp:177:9: warning: unused variable 't'

04/28/2012 01:47 PM - Massimo Del Fedele

Status:	Approved	Start date:	04/28/2012
Priority:	Immediate	Due date:	
Assignee:	Massimo Del Fedele	% Done:	100%
Category:	Core	Estimated time:	0.10 hour
Target version:		Spent time:	0.00 hour
Description			
t variable is not used in optimal mode. It should be surrounded by ifdef, otherwise tons of warnings when building.			

History

#1 - 05/01/2012 04:32 PM - Miroslav Fidler

- Priority changed from Normal to Immediate

#2 - 05/12/2012 01:32 PM - Miroslav Fidler

- Assignee changed from Miroslav Fidler to Massimo Del Fedele

Weird:

```
template <class T>
void Value::SvoRegister(const char *name)
{
    dword t = GetValueTypeNo<T>();
    ASSERT(t < 255);
    SVO_FN(sval, T)
    svo[t] = &sval;
    AddName(t, name);
}
```

I would swear it is used in optimal mode too?!

#3 - 05/12/2012 01:34 PM - Miroslav Fidler

- Status changed from New to Ready for QA

Sry, wrong line. Fixed.

#4 - 05/14/2012 06:46 PM - Massimo Del Fedele

- Status changed from Ready for QA to In Progress

- Assignee changed from Massimo Del Fedele to Miroslav Fidler

Sorry, at least here :

```
template <class T>
T& Value::GetSmall() const
{
    dword t = GetValueTypeNo<T>();
    ASSERT(t < 255 && (t == STRING_V ? IsString() : Is((byte)t)));
    return *(T*)&data;
}
```

the problem is still present.

I recompiled it with an #ifdef and there are no warnings anymore.

#5 - 05/14/2012 08:27 PM - Miroslav Fidler

- *Status changed from In Progress to Ready for QA*
- *Assignee changed from Miroslav Fidler to Massimo Del Fedele*

And now?

#6 - 05/14/2012 10:47 PM - Massimo Del Fedele

- *Status changed from Ready for QA to Approved*
- *% Done changed from 0 to 100*

It's ok now.

Btw, I don't get any mail from redmine.... I keep missing your updates.

Max
