U++ - Bug #341
Witz template parser eats empty lines

10/21/2012 01:14 AM - Jan Dolinár

Status:	Approved		**Start date:**	10/21/2012
Priority:	High		**Due date:**

Description

Empty lines get discarded when witz template is read. No big deal for general html, but in <pre> block or in plaintext it can make significant problems. Screenshot showing the problem and patch is included.

Only side-effect of the patch is that it always adds \r\n on the end of file, even where there was none before. But that is IMHO a feature rather than a bug (many text editors behave the same by default, e.g. nano or geany) :-) It could be fixed too if necessary, but I'm really not sure if it is worth it.

History

#1 - 10/21/2012 01:34 AM - Jan Dolinár

- File witz.patch added

Corrected the patch

#2 - 10/21/2012 01:35 AM - Jan Dolinár

- File deleted (witz.patch)

#3 - 10/23/2012 11:28 AM - Miroslav Fidler

- Status changed from Patch ready to Approved
