#### History

##### #1 - 05/27/2013 12:04 PM - Sender Ghost

- File `353_uppsrc.diff` added
- Category set to IDE
- Status changed from New to Patch ready
- Assignee set to Miroslav Fidler

I created the patch for initial support:

- Added **MSC11** and **MSC11X64** builders (mainly, to distinguish them).
- Redesigned the interface, based on **TabCtrl** and list of layouts (with possible extensibility).

The include and library directories were added by analogy. Further support will require to install **Visual Studio 2012** and check them. There is [Visual Studio 2012](#) topic on the forum, which might help. Personally, I don't have required Windows version.

##### #2 - 05/28/2013 08:29 AM - Miroslav Fidler

- Status changed from Patch ready to Approved

Thanks, nice!

##### #3 - 05/28/2013 09:23 AM - Sender Ghost

- File `353_uppsrc_fix.diff` added
- Status changed from Approved to Patch ready

Small fix for the patch.

##### #4 - 05/29/2013 10:17 AM - Sender Ghost

- Status changed from Patch ready to Approved

r6125

##### #5 - 06/04/2013 12:17 AM - Sender Ghost

- File 353\_uppsrc2.diff added
- Status changed from Approved to Patch ready
- % Done changed from 0 to 100

I created second patch, which corrects include and library directories.

#6 - 06/04/2013 01:04 AM - Sender Ghost

There are also "arm" SDK subdirectories (along with "x64" and "x86"), but I'm not sure about them.

#7 - 06/08/2013 10:49 AM - Sender Ghost

- Priority changed from Normal to High

Since, this feature is not complete (as people [said](#) on the forum) without last patch, I raised its priority.

#8 - 08/16/2013 07:38 AM - Sender Ghost

- Status changed from Patch ready to Approved
- Priority changed from High to Normal
