**Description**

Hello Mirek

Now ArrayCtrl has in DoRemove() one sentence for row deleting:
RowFormat(t_("Do you really want to delete the selected %s ?"))

and RowFormat uses row_name that is:
row_name = t_("row");

In some languages like Spanish, "selected" past participle has to be plural if "row" is plural.

Could you add the possibility of one set strings for singular and another one for plural?

Thank you!
