

U++ - Feature #455

Extending macro methods in TheIDE

03/13/2013 08:42 PM - Jan Dolinár

Status:	Approved	Start date:	03/13/2013
Priority:	Normal	Due date:	
Assignee:	Miroslav Fidler	% Done:	100%
Category:	IDE	Estimated time:	0.00 hour
Target version:		Spent time:	0.00 hour
Description			
<p>After trying to write some useful macros (related to creating deb packages in theide), I found that the macros in theide lack some useful features. Attached is a patch that attempts to fix it.</p> <p>Changelog:</p> <ul style="list-style-type: none">- Added couple methods for macros (see docs)- Updated and extended macro documentation- Added ToLower, ToUpper to Esc- Changed behaviour of to_number() to return void when ScanDouble fails- Updated and extended Esc documentation- Added reference/Macro with extensively commented examples <p>Please check that it works as intended (especially on windows, I haven't tested that) and upload. Thanks.</p>			

History

#1 - 03/13/2013 08:42 PM - Jan Dolinár

- File macros.patch added

#2 - 03/14/2013 08:48 PM - Miroslav Fidler

- Status changed from Patch ready to Approved

Sweet, applied.
