

U++ - Bug #555

FromUtf8(), ... functions raise and exception when char *s is NULL

10/30/2013 01:59 PM - Iñaki Zabala

Status:	Rejected	Start date:	10/30/2013

Description			
<p>FromUtf8(), utf8len()... functions raise and exception when char *s is NULL.</p> <p>The reason is that strlen(NULL) raises an exception.</p> <p>This affects to ToUpper(const char*) functions.</p> <p>Should FromUtf8() or ToUpper() check this or is it a matter of the programmer?</p>

I think that these functions are the same category w.r.t. input const char* parameter as strlen. Therefore IMO it is not a bug, you should not pass NULL pointer there.

#2 - 11/18/2013 03:43 PM - Iñaki Zabala

I agree. It seems ok.
