| Description | | | |
| I think, we should improve several IconDes icons by using smoothen filter. | | | |
| P.S I used two base values (0.6 & 0.75) for smoothen algorithm. | | | |

UPDATE:

I made a small patch that fixes some issues.

Changes list:

- Pen1, ResizeUp, ResizeDown - smoothen filter was too aggressive;
- Rescale - small design changes, reduce the value of smoothen filter;

Mirek, Can you update these icons? (I didn't want to assume a new thread.)
