

U++ - Feature #646

Extended error dialog api

01/16/2014 01:08 AM - Zbigniew Rebacz

Status:	Approved	Start date:	01/16/2014
Priority:	Normal	Due date:	
Assignee:	Miroslav Fidler	% Done:	0%
Category:	CtrlLib	Estimated time:	0.00 hour
Target version:		Spent time:	0.00 hour
Description			
Sometimes ego, We introduced ErrorOK function, but why not extend this api to additional functions (prompt equivalents). Below is my proposition: <pre>void ErrorOK(const char *qtf); int ErrorOKCancel(const char *qtf); int ErrorYesNo(const char *qtf); int ErrorYesNoCancel(const char *qtf); int ErrorRetryCancel(const char *qtf); int ErrorAbortRetry(const char *qtf); int ErrorAbortRetryIgnore(const char *qtf);</pre> Moreover I enclose full implementation of this functions.
