U++ - Bug #689
Ctrl::Create should invoke "RefreshLayoutDeep" method (GTK backend)

02/13/2014 05:11 PM - Zbigniew Rebacz

Status:	Approved		**Start date:**	02/13/2014
Priority:	High		**Due date:**

Category:	CtrlCore		**Estimated time:**	0.00 hour
Target version:			**Spent time:**	0.00 hour

Description

It seems that GTK backend author forgot to add "RefreshLayoutDeep()" invocation at the end of Ctrl::Create method. All other backends do this (Win32, X11).

This invocation is very important, because it can prevent us from some graphical artifacts like invisible menu bar on KDE.
