

U++ - Feature #730

POSIX Builds should contain version number (IDE)

03/29/2014 02:32 PM - Zbigniew Rebacz

Status:	Rejected	Start date:	03/29/2014
Priority:	Normal	Due date:	
Assignee:	Miroslav Fidler	% Done:	0%
Category:	IDE	Estimated time:	0.00 hour
Target version:		Spent time:	0.00 hour
<b>Description</b>  It seems that IDE version numbering works only on M\$ Windows. Can we fix it?  Current POSIX version of file ide/version.h: #define IDE_VERSION ""			
<b>Related issues:</b> Related to Bug # 1051: IDE - add release information

This can be implemented easily with svn after-commit hook or something simmlar.

#2 - 11/02/2015 09:08 PM - Zbigniew Rebacz

- Status changed from New to Rejected
